TAILOR'S MEASURE

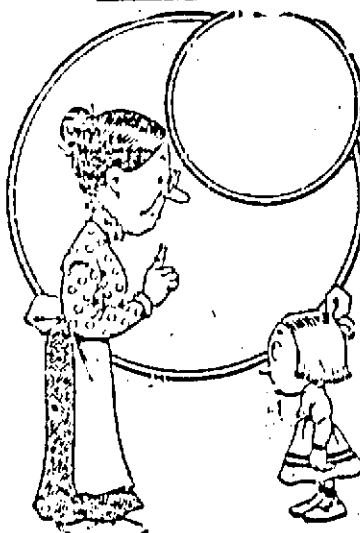

Arrangement of Rulers and Tape Ensures Accuracy.

Even a poor tailor can get your measurements correctly with the measuring device designed by a New York man. This is so constructed, of rulers and tape, that it does the work almost automatically, not to mention its accuracy and the speed with which it can be used. An upright standard has been attached to it a sliding bar, putting out at right angles. At the end of the horizontal bar is a vertical ruler, against which the customer stands. Another rule passes under one arm and on the back of

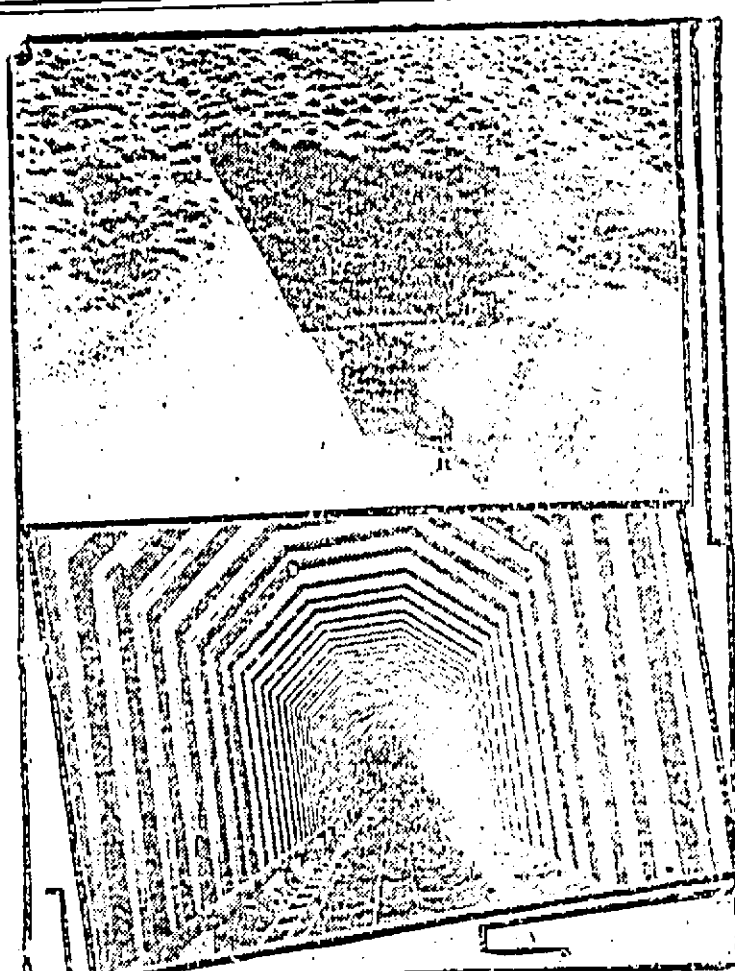

QUICK AND ACCURATE

this, forming a "T" is still another horizontal ruler, passing up the customer's back to above the collar. Tape measures depend from the horizontal rule in the back and pass around the neck, while a sliding bar on the vertical rule in the back is brought down until it rests on the shoulders. When a man has been traced up in this form of straight jacket it takes only a few minutes for the tailor to get measurements which are absolutely accurate.

Teacher—Who can give me a sentence in which the words "bitter end" are used?
Student—I can, teacher. The cat ran under the bureau, and the dog ran after and bit her end.

Importation of Birds.
More than \$300,000 worth of birds were imported into this country during the year 1908. They were largely parrots and canaries.

West Portal of Gunnison Tunnel; Interior of Gunnison Tunnel Showing the Timbering.

Grand Junction, Col., Sept. 21.—When President Taft today pushed the button and turns loose the waters

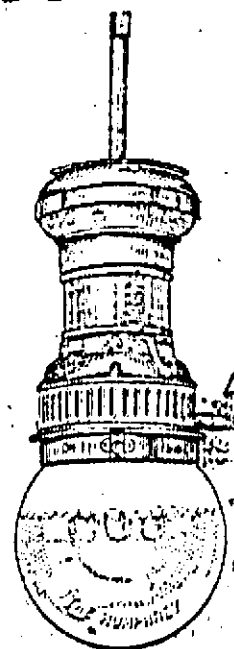

of the Gunnison river through the tunnel a great project for which prosperity will thank a thoughtful central government will be completed. It has taken four years to complete this work at a cost of \$1,000,000. About 20,000 acres of land will be opened to the public. The cost to each settler is about \$25 per acre, payable in ten installments.

FOOLISH, FOOLISH, QUESTIONS

FOOLISH QUESTIONS—1910, 042.

The names of five creatures of the barnyard are to be found above. Can you find them?

The Foolish Cubans.

IT WAS in Havana, sir—in Havana," said the Colonel, in tones that could be heard by all the passengers in the street car, "and at the hotel I encountered a Cuban gentleman who asked me what I thought of his country. I replied, sir—I replied that I didn't think much of it. I told him, sir—I told him that his country would go to the dogs under Cuban management. I put it right at him, sir—I put it right at him that the United States would have to continue to play wet nurse, or the island of Cuba would become the hotbed of anarchy."

"And he agreed with you?" was asked.

"No, sir, he did not. He did not agree. And I told him, sir, that the Cuban government was a government of children and that the only hope to pay her debts."

"Yes, sir, I told him that."

"And didn't he like that, either?"

"No, sir, he didn't. And I told him that."

HOSIERY

WHY ARE WE SO PERSISTENT IN ADVERTISING HOSIERY?

BECAUSE THERE IS NO ONE THING IN THE READY-TO-WEAR LINE THAT LADIES AND CHILDREN HAVE TO BUY SO OFTEN; AND MOST PEOPLE BUY HOSE IN WHATEVER STORE THEY HAPPEN TO BE.

IF YOU ONCE GET ACQUAINTED WITH OUR VALUES, YOU WILL BE SATISFIED WITH NO OTHER. WE CANNOT EXPECT YOUR BUSINESS UNLESS WE GIVE YOU THE VALUES WE ADVERTISE.

IF YOU BUY HOSIERY WITH A DROPPED STITCH YOU MIGHT AS WELL DARN YOUR OLD STOCKINGS. IF YOU FIND A DROPPED STITCH OR DAMAGED PLACE IN ANY HOSE BOUGHT AT OUR STORE, PLEASE RETURN IT AS WE INTEND TO SELL PERFECT HOSIERY.

Dental Chats

A lady recently said to me: "I have read your ads for years, and I have always said: 'When I needed dental work, I should surely go to you.'"

"This is just as it should be."

People get to feel that they really know me, through these dental talks which I give from day to day, and the best of it is, that when they come to me for dentistry, they find that "what I have said to them through the paper" has been the truth.

Again: It isn't alone what men say, but it is what they do that makes reputation.

If I can judge by what my patients tell me, I feel satisfied that I am making good every day in my efforts to give high grade service with the least pain of anybody in the dental business.

I guarantee my work in every respect to be "O. K."

LUNATIC PASSED TWO BAD CHECKS

M. L. HALMRAST POSED AS A BUYER OF HORSES.

APPEARED PERFECTLY SANE

And the Owners of Equines in Various States of Deceitfulness Were All Hot on His Trail.

M. L. Halmrast, formerly of Windsor and La Crosse, but more recently of the Mendota insane asylum, is the shrewdest "crazy" man who ever bought horses or passed worthless checks in Janesville. This appears to be the well-founded conclusion reached by a number of saloon-keepers and horsemen with whom the smooth-tongued and plausible Swede dealt with during his brief but brilliant career in the city.

Halmrast, well dressed, apparently "well healed," and without an indication that he harbored any delusions, struck town early yesterday morning. For an insane man, his first move was eminently practical. At the Rock County National bank he entered his name on the books and procured a check book, stating that he expected to deposit \$3,000 when it arrived Wednesday. After thus securing the munitions of war, he proceeded to make the rounds of the saloons. At every place he stopped, he expressed his intention of buying horses—any kind—anywhere, heavy, with ring bones or without. It was not long before every man in the town who had a nag that he wished to sell was on Halmrast's trail. Accompanied by William Knapp, at whose place of business his first stop was made, he proceeded down Milwaukee street, finally halting on South River street where he purchased a horse from A. U. Wood for \$20, for which he offered a check for \$10 as first payment. This evidently only whetted his appetite, for in T. F. Siegel's saloon he offered to "set 'em up" for the party. Here again the check for \$10 was much in evidence. Misled by Halmrast's assured demeanor, Siegel, not heeding Knapp's warning gesture, cashed both checks. Wood, however, ordered his, so there was no danger on that score.

By this time, the excitement proved too much for Halmrast and he announced his intention of securing a room at some hotel. Despite the fact that what money he had in his pockets was the proceeds of a forged check, he demanded the best room at the Grand hotel and went to bed. But those with whom he had been doing business throughout the day, began to ponder a little, and in a short time the telephone wires at the police station were hot. No action could be taken until it was ascertained that Halmrast had no money at the bank with which to meet his obligations, but to be on the safe side, instructions were given the night men to watch his movements, and when at two o'clock Halmrast started to leave the hotel, Officer Morbey took him in charge and brought him to the police station.

This morning, after the mink had disappeared from his brain, Halmrast told this story to Chief Appleby and inquiries at the state hospital showed his statements to be true. At one time the prisoner was a well-to-do business man at Windsor and worth about \$14,000. Fire destroyed his stock and he moved to La Crosse, where misfortune, in the shape of an absconding partner, again almost ruined him. After the second reverse he took to drinking, which soon affected his mind. At one time in the west, when his hobby for buying horses first struck him, he had three carloads of horses shipped to him when a ten cent piece represented his entire resources. Eight months ago he was committed to the asylum at Mendota from whence he made his escape Sunday night. He appeared to be entirely rational this morning and expressed the wish that he might be given the opportunity to make good all that he had taken while irresponsible. What money he had in his pockets he restored to Siegel, who stands to lose about \$50. He was taken to the Mendota asylum by an attendant this afternoon.

MRS. MILES FANNING WAS GIVEN PLEASANT SURPRISE

Friends Gathered at Her Home Last Evening in Honor of Her Nineteenth Birthday.

Friends of Mrs. Miles Fanning gave her a very pleasant surprise at her home last evening on High street in honor of her nineteenth birthday. Part of the evening was spent in playing Pinch after which a delicious three-course luncheon was served. Mrs. Fanning was presented with a number of beautiful gifts and was the recipient of the best wishes of her guests who commended her as a delightful hostess.

A Difficult Ideal.

"Don't you want to make a record that posterity will read with admiration?" "Yes," answered Senator Borglum, "but such an ambition seems far beyond the bounds of possibility. It is becoming harder and harder to get up a biography that will not be thrown aside by nine readers out of ten to make room for a best seller."

ELEVEN PREPARING FOR GAME SATURDAY

High School Football Players Training Faithfully for Contest With Whitewater Normal.

Janesville high school football athletes met for practice at Dunn's pasture last evening for the first time in positions on the team which will represent the school in the game against the normal school next Saturday. There were eleven candidates for a position on the team. There has been no selection as yet for the players on each position, but those who desire to try for a place will be given a chance and Prof. Knudson, who is coaching them, will select the best players. He expects that the school will have a very good team this year, quite the equal of any other high school in this vicinity. There has been considerable enthusiasm shown by the boys and a goodly number have turned out at each practice. The team will be light, though not lighter than the average high school eleven, the average of weight being from one hundred and thirty-five to one hundred and forty pounds. The one hundred and forty pounds, the heaviest man is Wilkinson, who weighs 160 pounds. The lightest is a fifty-five and one hundred and sixty pounds.

In preparation for Saturday's game there will be scrimmages practice every night this week when the weather permits.

JANESVILLE CUBS DOWNED

BELOIT CARDINALS SUNDAY

Junior Team Shut Out Opponents 3 to 0 in Shortest Game Played This Year.

Janesville baseball players pushed Beloit almost off the baseball map in the games played Sunday. A team of crack players met a star aggregation at York's park and took a full out of them with a three to nothing score, and a junior nine from the Iowa City did the same trick with an amateur nine from the Line City composed of older and larger players than themselves. The latter outplayed the Janesville "Cubs" and was the Beloit Cardinals, and was played at York's park. The "Cubs" were in the best of playing form and not only prevented the Cardinals from scoring, but ran up three tallies themselves. The game was the fastest the team has played this year and one of the shortest. Nine full innings were played in sixty-five minutes. Berger, the strong arm, for Janesville, pitched a wonderful game, holding the Cardinals down to a single hit. Excellent work by the infielders added him greatly in shutting out the Beloit bunch.

HARVEST FESTIVAL SALE

OF THE SALVATION ARMY

Many Useful Articles to be Sold at Army Hall Beginning at Eight Wednesday Evening.

Next Wednesday evening, beginning at eight o'clock, the Salvation Army will hold its annual Grand Harvest Sale at the Army hall. Groceries, hardware, crockery and other articles will be offered for sale at that time. Hot coffee and cake will also be served. A fine musical program will also be given. The proceeds of the sale will be used in the good work which the Army is doing among the poor of the city. Captain and Mrs. Fleming are the officers in charge of the sale.

BRIEF LOCAL NEWS.

Poisoned by Spray: George Erdman, employed at the Jackson street Greenhouse of the Janesville Floral company, was seriously poisoned by a solution used in spraying plants. He was taken ill in the afternoon and shortly after midnight his condition became quite serious. Doctors Nuzum and Waulke worked over the man for some time.

Worship Scholarship: Francis Connors, son of Mr. and Mrs. L. F. Connors, went to Chicago yesterday to attend the Chicago Musical college, where he will take up the study of the piano. The young man won a free scholarship at this college last week.

Auto Party: J. M. Clancy, Carl Rose, H. H. Hulstree and T. T. Offill of Stoughton composed an automobile party which was registered at the Grand Hotel last evening.

Three Licensed to Wed: Three applications for licenses to wed were filed with the county clerk today: Henry F. Krosch of Watertown, and Mary Costello of Janesville; Charles A. Eley of Amory, Wis., and Miss Edith C. Nichols of Beloit; and William Clark and Annie Murphy, both of Beloit, were the applicants.

Cronin Hearing Saturday: The examination of Miss Agnes Cronin, administratrix of the estate of Michael Cronin, and Mrs. Cronin, in the estate of Michael Cronin by her sister, Mrs. Parsons of Beloit, will be heard Saturday morning at 10:30, in County Judge Sale's court.

Examined Before Commissioner: Dr. George W. Fitch appeared before Court Commissioner E. V. Carpenter today for examination in a suit instituted by Albert Glezer, Attorney at Law, of Janesville, against T. S. Nolan of Janesville represented the defendant while Attorney Edward Ryan appeared for the plaintiff.

WILL JANESVILLE GET THE \$75,000 MOTOR CAR PLANT?

Stockholders Are Holding a Meeting in Chicago Today to Pass upon the Proposition.

M. G. Joffe, W. F. Palmer, Frank Holmes, George B. Parker, and J. L. Hestwick are attending the meeting of the Owen Thomas Motor Co. in Chicago this afternoon and will make an earnest effort to have the projected new \$75,000 factory located in Janesville. It is said that the Messrs. Joffe, Palmer, and Holmes offered to be three of ten men to take over the new stock issue to cover the cost of the plant, but whether or not enough others have joined the movement to keep the company going remains to be seen. It appears that the Santa Fe official who is one of the stockholders and others wish to have it built in some large city on their line. Public sentiment toward this project has undoubtedly a remarkable change during the past few weeks. It is now admitted that there is a great future for the plant. The International Harvester Co. is said, has offered to pay a royalty of \$20 per vehicle for the privilege of using the patent spring attachment and other concerns are negotiating for the privilege of making car-bodies of the same pattern.

PERSONAL MENTION.

Amos Rohberg is in Chicago today. Howard Black left today for the mining district and will be employed at the Black mine during the winter. J. T. Mahoney of Portage, Wis., was a visitor in Janesville yesterday. Mr. and Mrs. E. A. Hoffman of Chicago visited friends in this city yesterday.

W. C. Stone of Beloit was a Janesville visitor yesterday.

E. S. Swenson of Reedburg transacted business in this city yesterday. The Misses Ellen Nolan, Sadie and Clara Ringman and Catherine Andrews drove over to Lake Delavan today and spent the day there.

TO OPEN LETTERS

Device Bites Ends Off Envelopes at a Clip.

To the busy man any device which will save a few minutes' time in a day is important; therefore, the letter-opener designed by an Oklahoma man should find a place waiting for it on every office desk. This contrivance will open letters much more quickly than any other method yet conceived and will do the work easily. The machine consists of a large arrow bent with a third mouth running the length of the front. The upper portion of this third mouth, both parts of which are metal, is a knife with

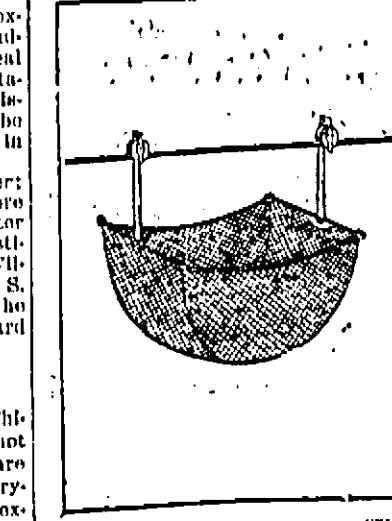

INSERT LETTER IN SLOT.

A razor edge. It is pivotedly mounted and operated by means of a vertical rod which terminates in a knob on top of the device. To open a letter the envelope is thrust endwise or lengthwise into the slot. A pressure on the knob depresses the knife and it cuts through the metal seal which constitutes the lower portion of the mouth. Care must be taken, of course, not to push the letter too far in.

CLOTHES-PIN TROLLEY

Wire Basket Runs Along Line and is Within Easy Reach.

Hereafter active surgeons will no longer be called upon to open careless washers' bodies and take out a clothespin or two. A Kansas inventor has devised a clothespin trolley which rolls along the line within easy reach and eliminates the necessity of holding the pins in the

NEED NOT HOLD PINK IN MOUTH.

A month. This receptacle consists of a wire gauge basket with a curved bottom and with bars rising from the ends. At the top of these bars, of which there are two, are little rollers fastened between the bars and a short portion that is bent just the other way and is fastened along from place to place, always just at hand when a garment is to be fastened. This saves the washwoman the great deal of time she wastes in holding the clothespins in her apron or going to the clothesline very time she wants more than she can hold in her mouth.

TWILIGHT CLUB TO OPEN YEAR OCT. 19

Providing Deep Waterways Convention Meets Here Same Date as is Now Planned.

At a meeting of the program committee of the Twilight club it was decided that the opening session of this men's organization should be held in the Y. M. C. A. auditorium on the third Tuesday evening in October, providing that the Deep Waterways convention meets here on the same day according to its schedule. If for any reason the Waterways meeting is postponed, similar action will be taken with regard to the Twilight club, as it is the plan to have a discussion of this subject by the experts brought here to address the convention. Topics for the succeeding meetings have not yet been chosen. The committee consists of Sam Smith, M. O. Mount, J. L. Clements, C. V. Kereh, and E. J. Hammondson.

Foreigners at German Universities.

The number of foreign students at the German universities, which, owing to the increased severity in the conditions of admission, had declined last year to 3,594, has risen to 3,921, chiefly because this is the first summer in which foreign women could matriculate at all universities. The numbers include 1,578 Russians, 674 Austro-Hungarians, 306 Swiss, 155 English, 161 Bulgarians, 102 Rumanians, 68 Servians, 60 French, 298 Americans, 175 Asiatics and 4 Australians. Of these 1,181 entered for medicine. Berlin and Leipzig are now the favorite universities instead of Heidelberg, which formerly headed the list.

EXPLORER COOK GETS WELCOME IN NEW YORK

(Continued from Page 1.)
at my old quarters in Discovery bay. He then lost eight toes and was saved from death by the stores. I think that it was over two months before he was able to return to his ship. There was left at Conger all the books, clothing and other personal belongings of 25 men. Almost anything might be found, as we took with us only our scientific records, diaries and the clothing which we wore, with ten pounds of selected personal property for each man.

Will Probe Cook's Mountain Climb.
Tacoma, Wash., Sept. 21.—Attorney J. M. Ashton of this city has been retained by a New York law firm to obtain all information possible regarding the disputed ascent of Mount McKinley by Dr. Frederick A. Cook. Mr. Ashton says he does not know whether the information is wanted by Peary adherents or by friends of Dr. Cook.

MADE A MEAL OF NICE FAT SPIDERS

Shoboygan Prisoner Started the Turnkey Yesterday Morning— Other News of Lake City.
(SPECIAL TO THE GAZETTE.)
Shoboygan, Wis., Sept. 21.—Harvey Ebenreiter, eighteen year old son of Robert C. Ebenreiter of Ebenreiter & Hildebrand, lumber dealers, is lying in his home probably internally injured, as the result of an accident incurred while playing leap frog with a number of friends at a picnic at the Jackson farm on the lake shore near this city. When he was about to jump, the "frog" stood upright and Ebenreiter fell heavily against the fellow's shoulder with his abdomen. He lay unconscious for nearly three hours. He was removed to his home in the city where he is in no critical condition, although his pain is intense.

Hollander's Odd Taste.
Francisco, Pa., Sept. 21.—Hollander who recently attempted to purchase a restaurant in Coatsburg for ten cents after he had contracted to pay \$6,000 for it, was found by Underhill Goodell in his cell Monday morning eating of the most luxurious menu ever before offered in a county jail. The man, who is believed insane, calmly picked fat and juicy spiders from their webs, and after doffing amputating their legs, ate the trunks as he would a delicious spring chicken. He was removed to another cell where he was not able to indulge in that luxury.

LA CROSSE CRITIC ON THE STATE FAIR

A. Hirschheimer, Millionaire Manufacturer, Says That Exhibition Is Dominated by Politicians.
(SPECIAL TO THE GAZETTE.)
La Crosse, Wis., Sept. 21.—That the state fair at Milwaukee does not realize its full possibilities for the reason that it is dominated by politicians is the declaration of A. Hirschheimer, millionaire manufacturer, who has just returned from a trip to Milwaukee. "I don't want to pose as a knacker," said Mr. Hirschheimer, "but after having seen the state fairs of Minnesota and Iowa, I was disappointed with the Wisconsin show. The exhibitors from the state also deserve criticism for not patronizing it in larger numbers."

Water-Railway Deal.
It is now apparent that the deal looking to the purchase of the La Crosse City Railway company by the La Crosse Water Power company will fall through because of a hitch as to the sort of payment which is to be made. The Water Power company wishes to pay in its own bonds, while the railway company insists on cash. The option on the railway property expired at midnight this morning and the talk in the water power offices is that there will be no effort to have it renewed. The owners of the street railway company are disposed to get out of the business because of the feeling that public utilities are unprofitable but they want cash in order that they may be entirely out.

MOUNTAIN CLIMBING RIVALRY OUTSHINES COOK-PEARY CONTROVERSY.

Mrs. Burlock Workman at right; Miss Annie Peck in Her Mountain Climbing Costume at left.

New York.—A controversy now threatens which may assume almost as great importance as that concerning the north pole. This involves two female explorers and the world's high record for mountain climbing. On the one side is Mrs. Burlock Workman, the American mountaineer, who is returning from a five year's trip to India and China, most of which time was spent

In the Himalayas scaling lofty summits.

Mrs. Workman said she wished to call attention to the fact that the record really belonged to her as champion woman climber.

"I know Miss Annie Peck claims this record," said Mrs. Workman, "but she has no ground to stand on. When Miss Peck climbed Hara Chang, in the Andes, the mountain was only measured scientifically for 15,000 feet while the rest, about 5,000 feet she claims, was left to estimates made by herself and the Peruvians.

"Now, I do not see how Miss Peck's record can stand against mine which is 22,200 feet on Nu Kun, in the Himalayas, and this has been measured scientifically by the official surveyors of India, Acungagun, in South America which has been measured scientifically as 22,800 feet high is, I believe, the highest peak scaled by Miss Peck of which a scientific estimate has been taken."

Mrs. Workman is a woman of medium height, with almost white hair. The most recent great peak scaled by Mrs. Workman was that which she called "Diao water-seed." The crest of this mountain is at the junction of China, Russia and India, with an altitude of 21,000 feet.

"It took us about three days," said Mrs. Workman. We camped at 19,200 feet and spent the night. Next morning we resumed climbing and reached the summit after an arduous climb of three and half hours. It was one of the most hazardous climbs I ever had. The last 2,000 feet was made along a precipitous ridge in some places only 18 inches wide.

"At one time on this trip there was danger when an avalanche swept down the mountain. We had to throw ourselves down behind a ridge of rock to save our lives. We were covered with dust and small stones, but unhurt."

OUT FOR MAYORALTY HONORS IN SAN FRANCISCO.

San Francisco is in the midst of a lively pre-election fight for mayoralty honors. Three candidates are in the field. William Crocker, Republican, one of the leading business men of the city; Dr. T. B. W. Lealand, Democrat, at present coroner, and P. H. McCarthy, Union Labor candidate, president of the State Building Trades council.

While the successful candidate will not be known until the election in November, the party primaries have taken on all the excitement of an election. The republican candidate was

AT LEFT, DR. T. B. W. LEALAND, AT RIGHT, WILLIAM CROCKER.

nominated over Byron Manzy by a plurality of 596. Francis J. Heney defeated Pickert for the Democratic nomination. For the district attorney by a majority of 124. Coroner Lealand won handsily over the other two candidates for Democratic nomination, Ralph McLean and Edward R. Rock. McCarthy beat out Francis J. Sullivan for the Union Labor nomination for mayor by a vote of approximately 3 1/2 to 1.

Everything points to a hot fight for the final vote, but at this time it is impossible to hazard a guess as to the successor of Mayor Taylor.

Let Me Suggest That You Need Not Suffer With Disease

I Know a Way for Sick People to Be Well. Will You Come to Me and Learn of It?

Chiropractic Science

The wonder of the age—fills the hopeless with hope. Tells the despairing to forget despair—Makes well men and women of sick and ailing ones.

The success which has attended my work makes it unnecessary for me to longer ask you to take my unsupported word—grateful well people who were sick and despairing before they came to me gladly tell through this newspaper of the work I have done.

Here's a Sample Testimonial

No names are used except on request of the cured ones.

TO WHOM IT MAY CONCERN:—

I am 26 years of age. I suffered 9 years ago with a tumor of the left side of my face just in front of the ear and upon consulting a prominent physician of Milwaukee I was told that I would have to be operated on as it was incurable and that by an operation I would be free from all my trouble. So I submitted to an operation and like most of us poor victims I was led to believe that the man with title of Dr. or M. D. to his name knew his business. I was operated on three different times in a year and the X-ray treatment I would come out all right. So when I came to Beloit I took X-ray treatment here three times a week for seven months.

The left side of my face became so paralyzed that I could not move it and my left eye remained open day and night. Then he told me that the muscles of my face were weak and that I would have to wear glasses, and that they would relieve them. After spending about \$250 for all of this guesswork I was worse off than I was before I started.

I was advised by friends to try Mr. R. Puddicombe's Chiropractic adjustment and by taking their advice went and saw Mr. Puddicombe and I am glad I did for I am now a well woman—not only of the paralyzed condition of my face, but of all my other troubles that most women are subject to. Now this testimonial is not given alone as a financial gain for Mr. Puddicombe, but for suffering humanity's sake as well. If you suffering men and women would only read and reason for yourselves and quit dosing with medicine, and submitting yourselves to those unnecessary operations and go to R. Puddicombe, the Chiropractor, and take Chiropractic adjustment and have the cause of your disease removed, your disease will disappear and you would get well and feel like a human ought to feel. While taking Chiropractic adjustment I witnessed cases of all kinds of disease get well under Mr. Puddicombe's care. Hoping others will gain from experience, I am, Yours very truly,

"Katy" Railroad Seeks to Recover
Title to Land Grant.

Washington, Sept. 21.—A suit against the United States for \$61,267,000 probably will be tried by the United States court of claims during the coming winter. This suit, which is one of the largest ever brought against the government, was instituted some time ago by the Missouri, Kansas & Texas Railroad Company, one of the land grant railroads, by the filing of a petition in the United States court of claims, in which it is alleged that by acts of congress the United States had agreed to convey to it the fee simple title to every alternate section of land to the extent of ten sections per mile on each side of its line through the Indian territory and Kansas. Subsequently many of these lands had been deeded to the Indians in severalty and had otherwise been disposed of to the great loss of the railroad company.

Virtue of Keeping Clean.
It might be too much to say that there is nothing so easy as to keep clean, since the subjugation of dirt does mean labor. But it is not too much to say there is nothing so possible as to keep clean. Water is plenty, soap is not prohibitive in price, and no better use can be made of labor than to make things tidy and pure and undefiled.—Kansas City Star.

WOMAN'S PAGE

The Evening Chit-Chat

By RUTH CAMERON

THIS is a plea for the pretty girl.

You don't think she needs any?

I do, for much as the world loves her I think it is sometimes unjust to her. In the first place, it will not credit her with possessing brains.

I have known in my life a great many pretty girls who were every bit as clever as they were pretty, and I don't think one of them got universal credit for her brains.

People seem to think that just because a girl has a pretty face it is impossible that she should have any further good qualities.

Now, isn't that absurd? Just because the Lord made the rose so very beautiful, that didn't prevent Him from also making it exquisitely fragrant, did it?

And just because He has given a woman the gift of a lovely face is not necessarily a sign that He has withheld from her the further gift of a lovely mind.

Sometimes, to be sure, a pretty girl will not be as careful about developing her mental abilities as her plainer sisters, but as far as their original equipment is concerned, I don't think that pretty girls are any more stupid as a class than homely girls as a class are.

clever.

The other way in which the world seems to me to be unjust to the pretty girl is in not recognizing what a desirable and praiseworthy thing her prettiness is. Very often I've heard someone say of a pretty girl:

"Her prettiness isn't any particular credit to her, is it? Didn't the Lord give it to her?"

And yet these very same people will commend the clever girl as if her cleverness were a thing of her own creation. Didn't the Lord give the brains just as much as the beauty?

Doubtless these people would tell me that the clever girl deserved credit for developing her brains.

The pretty girl undoubtedly fostered and developed her beauty and deserves just as great credit for that.

To think a pretty face a vain and useless thing shows great narrowness of mind.

We honor the poets and sculptors and painters and artists of every sort who in all times have given their hearts and lives to the creation of dead beauty.

Why not as much honor to the woman who does what she can to foster and improve her gift of living pretty?

FAMOUS ACTRESS IN SECLUSION AT RENO, NEVADA, AWAITING
A DIVORCE FROM CHARLES FROHMAN.
Margaret Hillington.

Reno.—It is several months since Margaret Hillington, the famous actress, wife of Charles Frohman, the equally famous theatrical manager, unknown to any save a local law firm and house rental agency, established her home in Nevada.

Today there are probably not a dozen residents of the city who recognize in the young woman in white sweater and light straw hat, who at frequent intervals passes along the streets, or rides a bay horse on the country roads, the woman about whom so much has been said.

If over a person, prominent or otherwise, resided here for any extended period in almost absolute seclusion from public observation, certainly this little woman has done so. To avoid all publicity, to shield herself from every occasion for comment, to live within the seclusion of her own home—this has been the determination of the woman who relinquished all her fame as the costar of Kyrie Bellay in "The Thief" in its wondrous success for two seasons at the New York Lyceum.

For months she has given absolutely no interview. She has not denounced the stage, nor the press, as reported; in fact, she has the most kindly feeling toward both.

The fact is simply that she has been a nervous wreck, and her condition has forced to give up activities, professionally and socially, for a season of absolute rest in her effort to regain her former health and strength. This she is now accomplishing by means of quiet home life and outdoor exercise.

HINTS FOR THE HOME

By ELEANOR ALLYN.

A sparkling hostess and a clean table cloth make a sauce piquant for the most frugal meal.

Pumpkin Pie.—In choosing a pumpkin the small, glossy ones are often the sweetest. Cut the pumpkin to small pieces without peeling and start in the cooler vessel with as little water as possible. When it has steamed for ten minutes "put to sleep" and when it is soft, which will be in a couple of hours, pull off the loose skin and rib, stirring carefully all the time, and then turn into a colander to drain. When ready to make into pies allow one teaspoonful of mace, two teaspoonfuls of vinegar and a large cup of flour to each five cups of the pulp; add for well beaten eggs and four cups of milk; sweeten to taste. Bake in deep pie tins lined with rich pastry for three quarters of an hour. They should be a rich golden brown and be firm as jelly.

Apple Butter.—The fireless cooker is a boon to the woman who feels that her summer's work is not complete if she has not added a jar of apple butter to the spicy, sweet-smelling closet where she keeps her hoarding of summer fruits. Those of us who remember the long, throwme stirring with a wooden paddle that went to the making of apple butter in the old times, wonder at the patience of those housewives who worked so tirelessly to provide the winter's supplies. Surely the path of the cook of today is made smooth to her feet. To make apple butter choose a mixture of sweet and sour apples. Have ready a gallon of cider boiled down to half of its original quantity. Fill with the peeled and sliced apples, cover closely, adding more apples as the heat causes them to shrink. When as many apples have been added as is possible cover closely and cook till thoroughly heated, transfer to the cooler and leave all night. If not reduced to a pulp in the morning, and apples sometimes cook unevenly, re-beat for four hours. A teaspoonful each of ground cinnamon, cloves and nutmeg will give a spicy flavor. If not quite thick enough a half an hour of careful cooking, stirring constantly, to prevent burning, will be all that is necessary.

BREWER LETS WIFE GO TO JAIL.

Scored by Cleveland Judge for Refusing to Pay Fine.

Cleveland, Sept. 21.—Father than loan his former wife \$500, which would have kept her from going to prison, Jacob Fickel, a brewer, saw her sentenced to the penitentiary for two years here. Sentence was suspended and Mrs. Fickel's son will attempt to raise the money and save his mother.

Mrs. Fickel embezzled \$593.76 from the estate of Bertha Rozonhardt while acting as guardian to the woman last winter. She was convicted but Judge Vickery told Mrs. Fickel she could go free if she would repay the money. Mrs. Fickel's son tried to raise the money, but failed. Judge Vickery called Fickel as a witness when the woman's case was called. The judge scored Fickel because he would not pay the amount of the embezzlement and see the woman cleared. An attorney for Fickel attempted to speak in behalf of his client, but the court refused to permit him to talk.

"Any man who is half a man would do as much as is asked of Fickel to save the mother of his children, even though he has no regard for her as his wife," said the judge.

NEW DIRECTOR OF
SCHOOL OF MUSIC

Eugene Luening of Milwaukee Conservatory Has Been Called to University of Wisconsin.

Milwaukee, Wis., Sept. 21.—Eugene Luening, director of the Wisconsin Conservatory of Music at Milwaukee, has been appointed acting director of the school of music at the University of Wisconsin for the coming year, to succeed Rosseter Gleason Cole, resigned. A number of organizations have been made in the organization of the school, in order to bring the school of music into better accord with the other schools and colleges of the university, notably the abolishment of the academic department, so that all students will henceforth be of collegiate grade.

The personnel of the instructional staff includes six others besides Prof. Luening, who will direct the work in harmony, composition, singing, and in chorus and orchestral work. R. D. Huth, who had charge of the department of piano instruction last year, will return to that position, teaching also the history of music. He will be assisted in piano instruction by Miss Alice Ragan and Mrs. Inga Sandberg. Elias A. Bredin will teach organ, voice and harmony, and Leroy C. Case will again be head of the department of public school music and methods, and will direct the university orchestra. The teacher of violin has not yet been appointed.

"It is not generally known that entrance into the conservatory is rather a difficult matter," said Prof. Ernst Meyer of the department of political science at the University of Wisconsin, discussing the conservatory to government service in the American consulate throughout the world. The university has taken the unusual educational step in establishing the special course to give the first semester of the coming college year, of which Dr. Meyer, for more than a decade in the consular service at St. Petersburg and Constantinople, and at Dresden, Germany, will have charge.

Students interested in entering the American Consular Service will have an unusual opportunity for preparation for the career, not only in the many general courses offered, but in the special course on the consular service offered for the first time this year. The course will deal with the manner of admission to the service, the privileges and immunities of consuls, and their powers and duties. Much interest in the course has already been manifested by prospective students since the report went out that the consular service is now a career, a fact to which recent reports of the U. S. Civil Service call special attention.

Woman A Utah Professor.

Miss Ellen A. Huth, instructor in the home economics department of the University of Wisconsin since 1904, has accepted appointment as head of the department of home economics in the State University of Utah at Logan, and has come west to take up her new work. It is a coincidence that the new head of the department of home economics at the University of Wisconsin, Miss Abby Murlatt, had her initial experience as a domestic science instructor at the Utah institution.

Plucking Chickens by Electricity.

One of the most unique tasks electricity is to be compelled to accomplish is the plucking of chickens. An electric fan for this purpose has been devised for wholesale poultry dealers. The fan is placed in a receptacle through which it drives a blast of air, enough to be sufficient to remove all the feathers and down from a fowl in a few seconds.

Expensive Foundations

The cost of foundations for new buildings in New York runs at times into very high figures. The contract for the foundation work of the new 25-story municipal building to be erected at the Brooklyn bridge entrance has just been let to the foundation company for \$1,435,147. The caissons must be carried down below the subway station to rock, which lies in places 80 feet below street level.

FORTY YEARS AGO

Janesville Daily Gazette, Sept. 21, 1869.

Two Boys Shot In The Melon Patch.—Complaint was made before Justice

last morning against Hugh Gilliland living about four miles south of the city, for shooting two boys by the name of Imman, aged respectively about twelve and fifteen years. They had entered the melon patch of Mr. G., and were stealing the fruit, as we understand, when he discovered them and fired two shots, both of which took effect wounding the boys. One of them is said to be very dangerously wounded, the charge entering his side just above the hip, the other had less seriously hurt. Such an occurrence is painful in every way, firstly that such boys should have no clearer perception of the rights of other people to their property; and secondly that the results of the shooting should have been so grievous.

But a few nights ago a gentleman from this city not only lost all his ears, but the thief broke down his tree. Last Sunday another gentleman's melon patch was entered and the rascals stole what melons they wanted and then cut off nearly all the vines.

These Ball.—Yesterday afternoon a match game of ball was played between the Acton Club of Chicago and the Mutuals of this city. The Actons arrived here at 2:15 and were taken immediately to the grounds where quite a gathering of people had assembled to witness the sport. Mr. C. L. Valentine was selected as umpire, and the Actons winning the toss sent the Mutuals to bat. In the first inning the Actons scored 7 to the Mutuals 2. In the next two innings the Actons scored six to the Mutuals four; at this time the Actons were dissatisfied with a decision of the umpire and refused to go on with the game unless a new umpire was selected. The Mutuals, rather than disappoint the people who had come to see the game, allowed them to put in a Chicago man, when they could be refusing, have had the game decided in their favor. Mr. Valentine is as fair and impartial as any man that ever umpired a game. It was the Actons that were wrong and not the umpire. After five in-

nings the Actons obtained a lead which they kept and finally won by a score of 37 to 18.

WANTED!

100 Horses

All kinds. Will be at Murphy's Livery Saturday, Sept. 25. Can use old fat horses.

M. LEVY, Buyer

CHICAGO.

\$15.00

We go to Canada again Tuesday, Sept. 21st, and can now make a rate of \$15.00 for the round trip. Canada is the greatest farming country in America today, and anyone who invests in Canada land now is sure to make money.

Conditions are right. A rich, deep soil, plenty of good, pure water and an ideal climate. Don't listen to people who say Canada is frozen up, for it is just as warm in Canada today as it is here in Southern Wisconsin. Come with us next Tuesday, and see for yourself.
